

Peer Evaluation III

Daniil:

Danii is very knowledgeable about everything he does for the group project and his contribution to the project is absolutely unmatched.

He does have some difficulties with delegating tasks and I do believe he needs to improve in that aspect because everyone wants to contribute to the project but due to lack of information being passed on they are not able to.

Contribution to group goals: 5

Quality of Individual contributions: 5

Effort and Participation: 5

Consideration of others: 4

Contribution of knowledge: 5

Working and sharing with others: 2

Jace:

Jace is always there for his teammates whether it is about work or life and I do believe that is a very good quality to have. His contribution to the group has been amazing and he is an asset to the group

I do believe that his response time could improve as sometimes his replies can take a bit longer than usual.
